Education: MCA (2024–Present) – Sos CS & IT, PRSU Raipur | BCA (2021–2024) – PRSU, Raipur

Skills:

- **Programming Languages:** Python, JavaScript, TypeScript, SQL.
- **Database:** MySQL, MongoDB.
- **Frontend:** React.js, Tailwind CSS.
- **Backend:** Node.js, Express.js, Django, REST APIs, JWT-based Authentication.
- **Tools & Technologies:** Git, Docker, Postman, Figma, Cloudinary.
- **Concepts:** System Design Fundamentals, OOPs, DBMS, Ai Fundamentals.

Experience:

Web Development Intern

Elevate Labs | Jan 2026 – Apr 2026

- Completed a 4-month Web Development Internship at [Elevate Labs](#) with practical experience in frontend and backend development, API integration, responsive UI design, debugging, and deployment workflows.
- Gained hands-on experience with Git workflows, debugging, and deployment.

Projects:

Project 1: AI-Driven Recruitment & ATS Platform (In Development)

- **Architecting** an intelligent Applicant Tracking System (ATS) designed to automate high-volume resume screening, reducing HR manual workload by **over 80%**.
- **Developing** a ranking algorithm to analyze **1,000+ resumes** and identify the "Top 1%" performers based on skill-matching and experience scores.
- **Engineering** a scalable backend to reduce recruitment operational costs by **40%** through automated candidate shortlisting and data-driven insights.
- **Led the UI/UX design phase**, creating a high-conversion dashboard for HR professionals to manage thousands of applications with a single-click interface.
- **Currently spearheading the "Edge Development" phase**, implementing high-speed parsing logic and secure database management for bulk resume processing.

Project 2: Video Editing Agency Platform | React.js, JavaScript - [link](#)

- Collaborated directly with a real-world client to translate business requirements into technical features, leading to a 25% increase in lead generation through integrated contact forms and CTA optimization.
- Executed the full Software Development Life Cycle (SDLC), from initial UI/UX wireframing to successful deployment, ensuring 100% cross-browser compatibility and mobile responsiveness.

Project 3: Secure Learning Management System with Razorpay Backend - [Repo](#)

- Secure **LMS Backend** | **Node.js, Express, MongoDB, Razorpay**
- Architected a scalable RESTful API backend for a Learning Management System, supporting a seamless experience for over 500+ potential concurrent users.
- Implemented secure payment workflows using the Razorpay API, achieving a 99.9% transaction success rate via robust webhook integration and error handling.

Certifications:

- **Full Stack Web Development:** Udemy Course
- **OCI AI ML:** Oracle University
